Mr. Rolle,

Since November of 2007 I have been going through physical therapy as a resulting from a total knee replacement. I wanted to take a few moments to recognize Sabrina De Conti for her efforts in assisting my rehabilitation. Throughout this process Sabrina has provided positive reinforcement, a true concern for my well-being and presented to me a program that was challenging and expedited my recovery. No matter the time of day whether the first or last appointment Sabrina maintained a customer first approach that speaks well of her professional commitment to her clients.

I will be concluding my formal physical therapy in a few days and I would strongly recommend Seneca Physical Therapy and Sabrina to anyone searching for physical therapy services. The staff at Seneca Physical Therapy is consistently helpful and courteous.

Sincerely,

Jim McGuire
